

AI Travel Planner

This project implements a simple AI-based Travel Planner using tourist place recommendations and a knowledge-base approach.

Features

- Tourist place recommendation
- Budget estimation
- Personalized travel suggestions
- Food recommendation for each destination
- CSV-based knowledge base integration

```
(base) rangoju@Rangojus-MacBook-Pro Q2 % mv travel_data.csv travel.csv
(base) rangoju@Rangojus-MacBook-Pro Q2 % ./planner
===== AI Travel Planner =====

Enter your budget: 5000
